Royal Agricultural Society of NSW

From the President

The Royal Agricultural Society of NSW (RAS) is mission-purposed to foster the prosperous and sustainable future of Australian agriculture. The original 1822 Prospectus of the Agricultural Society of NSW acknowledged that a nation flourishes best when the “a public spirit of agricultural improvement shall be implanted within the breast of all”. This is the mission we proudly continue in order to ensure thriving sustainability for generations of Australians to come.

Our mission is accomplished primarily through the time-tested approach of competitions because the very nature of competition drives innovation and excellence. Sydney Royal competitions establish industry benchmarks by which success can be measured year-on-year. Our Committees carefully design competition categories and establish judging panels to ensure the most effective impact on industry and relevant markets.

We know from 200 years of experience that our competitions raise not only the quality of produce but also the calibre of producers. This year was no different, the excellence of every exhibitor across the board is what continues to keep our competitions so highly anticipated and so well regarded. Thank you to every one of our exhibitors, we value your participation greatly.

Thank you also to our Judges, Officials, Stewards and volunteers who give so generously of their time and expertise. To our valued sponsors and supporters, thank you for your continued investment in what we do. It is because of all of you that Sydney Royal competitions continue to drive excellence in Australian produce, and to ensure the sustainability of agricultural practices.

I am delighted to work closely with our RAS Councillors and Committee Chairs and all RAS Staff involved in the Wine, Beer & Cider, Distilled Spirits, Cheese & Dairy Produce, and Fine Food sections.

On behalf of us all, I trust that you enjoyed your Sydney Royal experience and I encourage you to join in the tradition of entering every year. Together we can celebrate and propel Australian agricultural excellence.

I look forward to seeing you again next year.

A handwritten signature in black ink, reading 'John C. Bennett'.

2024 Sydney Royal Fine Food Show honours the best in the industry with a record gold medal haul

21 September, 2024

Fine food has taken centre stage today with the Royal Agricultural Society of NSW (RAS) announcing the 38 Champion products of its 2024 Sydney Royal Fine Food Show, with a mix of veteran entrants and new innovative products sharing the spotlight.

Judged over a three-week period, this year's hotly contested Show saw a record 215 Gold medals awarded across seven competitions and 1400 entries, with two exhibitors taking home Champion Awards for multiple products.

Stapleton Family Meats was one of these exhibitors, with the family business winning Champion Ham for the second year running thanks to its Stapleton's Own Full Leg Ham, as well as Champion Other Charcuterie Product for their 'Stapleton's Own Jalapeno and Cheddar Kransky'.

Renowned olive oil producer, Cobram Estate also took home multiple awards winning Champion Single Varietal Extra Virgin Olive Oil (Commercial Volume) with the Cobram Estate Ultra Premium Hojiblanca Extra Virgin Olive Oil and Champion Blend Extra Virgin Olive Oil (Commercial Volume) with the Cobram Estate Light Flavour Extra Virgin Olive Oil.

Chair of the RAS Fine Food Committee, Michael Bullen, said it was exciting for both the competition, and the wider fine food industry, to see exhibitor numbers returning to pre-covid times.

"We were delighted with the increase in exhibitors across the whole Show, with some individual competitions receiving 30 or 40% more entries than last year", Bullen said.

"Competitions like the Sydney Royal are vital to the Australian food and beverage industry as they allow producers to benchmark their products against industry standards, which then helps drive product quality.

"I am proud to say that this year there was strong competition across all categories, particularly in branded meat where 98% of entrants won a gold, silver, or bronze medal. In recent years, the industry has seen a focus on sustainability, productivity and better management practices, and we are really seeing this reflected in the high quality of meat that Australia is producing."

A great example of this exceptional quality is Stockyard Beef who came out on top this year, taking home the coveted Dick Stone Perpetual Trophy for Branded Meat Grand Champion Exhibit with their premium Wagyu Beef - 'kiwami by Stockyard'. Gumshire Pork also followed up their wins at the Sydney Royal Pig Show in April with the Champion Pork Award for their Hampshire Pork Loin, demonstrating a successful paddock to plate journey.

The 2024 Show saw a number of new classes and additional Champion Awards introduced to cater for the increasing range of diverse products that have been entering the consumer market in recent years.

MEDIA RELEASE

New classes introduced this year included categories such as Champion Plant Based Product which went to Mandolé Orchard for its Smooth Unsalted Australian Almond Butter and Champion Drink which was won by Wild Mother Tasmania for its Wild Mother Tasmania Raspberry Shrub, a zero-alcohol aperitif syrup.

Coffee lovers can also rest assured that they can get world-class coffee right from our backyard, with both Crater Mountain Coffee and Mountain Top Coffee Estate receiving gold medals in the Piccolo and Plunger categories respectively. However, it was Mountain Top Coffee Estate which came out on top winning Champion Coffee with its Nimbin Blend.

Since 2021, all coffee products entering the competition have been required to be 100% Australian grown, staying true to the RAS charter and vision.

“We continue to see new and innovative products entering the market, ultimately driven by consumer demand for alternative options, and this is particularly reflected in our Specialty Foods competition which has seen 60% growth since 2019. It’s important that these products and producers are given the space to shine, and the opportunity to receive feedback from experienced judges within the industry”, Bullen said.

“We have a rigorous, world leading judging process, and it is a credit to all the judges and stewards involved that the Sydney Royal’s high standards are maintained year upon year”.

All 2024 Sydney Royal Fine Food Champions are listed below. Full results (including gold, silver & bronze medals) can be found at the [RAS website](#).

“I would encourage everyone to explore this year’s RAS Fine Food, Wine, Beer and Cider, and Distilled Spirits results and use this to select products for their next get together or to create the perfect Christmas Hamper”, Bullen said.

CLASS 5 - Open Beef. High Marble Score 6+, Mix of Feeds, Mix of Breeds, Wagyu, Dry Aged

JUDGES' COMMENTS: Very big Class with an encouraging amount of Exhibits, with a very high standard. The tenderness and the juiciness was outstanding. The uneven fat distribution had an effect on some results. Overall the Class was of a very high standard, and the Judges feel it's a privilege to judge such a high standard of Australian Beef.

CLASS 2 - Extra Virgin Olive Oil, 100% Single Varietal – Commercial Volume

JUDGES' COMMENTS: A good consistent standard in a difficult year, silver and bronze medals stand out as a constant. The occasional gold medal is still something to strive for. As a reference and benchmark for the Australian industry one must proffer compliments all round. Congratulations to the two Gold Medal winners, this proves dedication to farm practices, a wonderful achievement. Twelve Silvers are fantastic. This shows the care and attention taken. To the Bronze Medalists you have produced a great commercial oil. Well done to everybody.

CLASS 4 - Flavoured Oils

JUDGES' COMMENTS: The EVOO Flavoured Oils this year, in the RAS Competition are an example of growers & creators alike of the excellence the Australian EVOO has come to & has striven for over the last 3 decades. The under base of EVOO were evenly balanced with none of them overpowering the flavours presented in these oils. These are definitely the best Flavoured Oils we have ever tasted at Competition level and the blenders should be congratulated. The citrus flavoured oils were fresh & zesty as they should be with no bitterness from the citrus noted. Again, the garlic flavoured Oils were not overbearing in your mouth or after taste which is a testament to the makers. The Black Garlic & Truffle oils are to die for. Truly exceptional, delicious & very usable Oils in every way. Brilliant & a delight to behold with only one just surpassing the other in point score. Thank you!

PASTA

CLASS 1 - Fresh Pasta

JUDGES' COMMENTS: The gluten free pastas varied in quality, however unfortunately they did not match the quality attributes of the wheat-based pastas. Colour, texture and taste were not as appealing as those features of the wheat pastas. We acknowledge it is very difficult to produce a high-quality pasta with non-wheat ingredients. The wheat pastas were of a good to excellent quality as demonstrated by their scores. The higher scoring products were worthy of their Medals. These makers are producing high quality products which they should be pleased with. Some Entries showed innovation by using new combinations of flavours / ingredients. These new flavour combinations were generally appealing to the Judges. We would encourage makers to innovate.

CLASS 3 - Filled Pasta

JUDGES' COMMENTS: This Class has improved greatly over the last few years with overall great results evidenced by so many Medal winners. Good innovation with interesting ingredients and unique flavour combinations (such as artichokes, smoked trout), and heartening to see so many vegetarian and vegan options are getting Gold Medals. Some further attention could be given to flavour balance and making sure the ingredients are actually necessary.

CLASS 4 - Specialty Loaf, including Artisan Bread & Hot Cross Buns (e.g., spelt, soy & linseed, olive, roasted garlic, herbs, Plain Vienna or Cob Loaf, etc.)

JUDGES' COMMENTS: Quality of the Class was overall very good. Some defects in the mixing of ingredients was noticed by the judging panel for a very few Exhibits, however most Exhibits were well developed. Some interesting innovative ingredient combinations in the bread was noticed and very pleasing to see that Exhibitors are developing traditional breads to include other flavour profiles. A small selection of Exhibitors had included Australian Bush ingredients and this was nice to see. Spice and fruit was well used in a variety of Exhibits with great care and attention to detail. Some years in the past, spices have been overused and detracted from the finished product.

JUDGES' COMMENTS: Great to see many Entries that were gluten free and dairy free offerings, with textures sometimes as good or better than their wheat based comparisons. Some Exhibits had great visual appeal but could be improved in flavour and vice versa. Overall a great standard with 1 Gold, 3 Silvers and 3 Bronzes awarded.

CLASS 9 - Christmas Cake & Puddings

CLASS 3 - Fermented Salami Type Products (e.g., Danish, Milano, Hungarian, etc.)

JUDGES' COMMENTS: Overall the Class delivered very consistently high quality and the calibre of Exhibits was quite good. Some outstanding craftsmanship in the Exhibits delivered, which shows the high level of skill within the industry in a specialised craft. Some Exhibits described flavours we could not identify once tasted as they were too subtle and they were scored down due to those findings. It is good practice to ensure that the flavour descriptors are identifiable in your Exhibit and it matches the description, else they are likely to be scored accordingly. This year a high amount of Medals were awarded across the Class, which is an example of the quality of Exhibits submitted and the passionate people producing them.

CLASS 5 - Jerky, Droewors and Biltong Strips

JUDGES' COMMENTS: An improvement in quality and appeal this year. Quite a few Exhibits were simply too hard and very dry. This is not consumer appealing. Exhibitors need to consider accurate product descriptions as a few Exhibits miss their mark on flavour.

CLASS 7 - General Smallgoods (e.g. Kransky, Frankfurt, Salami, Black Pudding, Mortadella, Brawn, etc.)

JUDGES' COMMENTS: Very diverse range of Exhibits with some interesting varieties and combinations of ingredients. Great to see some Exhibitors embarking on a new take in the traditional Exhibits and introducing a diverse range of ingredients. This year we found more attention to the balance of flavours from Entries and this provided some interesting outcomes. Overall the quality of the raw ingredients was of a high standard and this was evident in the finished products. Great to see so many Entries in the Class and some very strong contenders for Medals.

CLASS 10 - Fresh Sausages. Any meat species, uncooked. May be minced or comminuted

JUDGES' COMMENTS: The overall quality this year was extremely high. A good combination of innovative flavours. Interesting new profiles e.g. Mac & cheese, Sticky pork and Filipino pork stay true to meat profile without overpowering with dried herbs and spices. Quality of the raw product was extremely high. It is pleasing to see Australian lamb profiled.

SPECIALTY FOODS

CLASS 1 - Sweet Preserves and Dressings (e.g., jams, jellies, conserves, marmalades, spreads, pastes, sauces, infused honey, etc.)

JUDGES' COMMENTS: Overall a very high standard of Exhibits. The most outstanding Entries were those that combine excellent base ingredients with other flavours and inclusions that complimented them either in flavour or texturally. Unique and innovative Exhibits amongst the classics. Some Exhibits didn't perform well because they didn't demonstrate the appropriate qualities for the Class or name of the item. We would advise Exhibitors to review the criteria for each Class to ensure it will have the best chance for success amongst like Exhibits. Some new Exhibits demonstrated innovative flavour and ingredients. However, Exhibitors must be mindful of the combinations and applications for the finished product.

CLASS 2 - Savoury Preserves and Condiments (e.g. chutney, tapenade, mustards, mayonnaise horseradish, relishes, salsa, chilli preserves, etc.)

JUDGES' COMMENTS: Overall this Class showed some innovative new products that were enjoyed and well rewarded. Spice blends were well balanced this year. Comment on the chilli-based Exhibits, there seemed to be a focus on just heat rather than a balanced edible product. It would be useful to see more indigenous spices appearing in products. Technically water separation in sauces was prevalent in many products this year. There were more clean and allergen free products, with less reliance on additives. This is pleasing as it reflects the consumer demand and enhancing the demand.

CLASS 3 - Savoury Dressings and Sauces (e.g. marinades, salad dressings, savoury pastes, curry pastes, wet rubs, pesto, pasta sauce, jus, etc.)

JUDGES' COMMENTS: Well presented innovation with respect to ingredients used and the style of products by Exhibitors. Flavour combinations were not well balanced in general. The balance of viscosity and consistency. The use of gums which also affect flavours, so some care in use is required. Texture issues were apparent in some Exhibits. The naming of a hero flavour, or characterising ingredient, these need to be apparent and tasted in the products. The challenge of flavour profiles used can be unbalanced for some consumers, but are ideal or accepted for other consumers. Provide characterising descriptions so people know what they are buying.

CLASS 4 - Herbs, Spices and Salts (e.g. spice mixes, dry rubs, Australian grown culinary herbs and spices - lemon myrtle, vanilla, saffron, pepper, dukkah, garlic, truffle, etc.)

JUDGES' COMMENTS: Encouraging to see so many uses of interesting ingredients, especially Australian native herbs and spices. As these flavours are strong, and may be potentially polarising for some consumers - the way an Exhibit is named is very important to meet consumer Expectations. This was particularly relevant with the dukkah products, some of which varied from a traditional notion of dukkah. We felt that consideration to flavour balancing should be carefully considered to avoid too many ingredients being used without actually having them contributing to the overall end result. Overall, a great example of creativity and thought put into the Entries we judged.

CLASS 5 - Pickled/Marinated Fermented Dried and Preserved Products (e.g. fruit, vegetables, pickled onions, figs, dried mushrooms, tomatoes, miso, garnishing pearls, non-meat jerky products, etc.)

JUDGES' COMMENTS: Overall a potentially interesting Class, but at times overuse of spices causes confusing flavours which resulted in a loss of points in judging. The Class has a growing appearance of pearls or bubble tea gels, the Judges wonder where and why such products would be used with effect. It is hoped that panel comments are felt as being useful for guiding Exhibitors to product improvements.

- CLASS 6 - Vinegars (e.g., caramelised, maceration including raspberry or tarragon, from any fruit, vegetable or grain, etc.)**
- JUDGES' COMMENTS: It was pleasing to see a large number of Exhibits made using natural processes and real fruit. Very few technical faults this year showing the industry is maturing and displaying its best to the world. Top scores were of two very different styles, yet each displayed the fruits they were made from beautifully. When innovating with new flavours and combinations, consider the culinary use and also explore multiple flavour options.

CLASS 7 - Smoked/Cured Aquaculture Product. Hot or Cold Smoked (e.g. salmon, ocean trout, rainbow trout, mullet, mackerel, etc.)

JUDGES' COMMENTS: Gold Exhibit visually perfect, great texture and mouthfeel, subtle smoke and the Rosemary in cavity delightful. Good balanced seasoning.

- G 290** BY KAI, *By Kai whole smoked trout* (Produced by By Kai) **91.33**

CLASS 8 - Other Farmed Aquaculture Products (e.g. eel products, abalone, anchovies, kelp, seaweed, roe, mussels, caviar, etc.)

JUDGES' COMMENTS: A very strong show, with the majority of Entries winning Medals. With the Abalone Exhibits we suggest that Exhibitors, give concise details around serving the Exhibit, particularly with sashimi application. Innovation evident, with under-utilised spices and cooking processes. The ready to eat and ready to heat products will attract consumers that are not confident in cooking seafood. Well done to all these Exhibitors.
