SINCE 1822

Royal Agricultural Society of NSW

Welcome from the President

Thank you for your interest in entering a Sydney Royal competition at the 2023 Sydney Royal Easter Show.

Agricultural competitions are at the heart of the Royal Agricultural Society of NSW (RAS) charter – to encourage and reward excellence, and support a viable and prosperous future for our agricultural communities. And it's been that way since our first Show in 1823. Today, the Sydney Royal competitions held at the Show attract close to 30,000 entries each year from passionate, skilled producers, competitors and craftspeople across the country.

The spirit of friendly competition comes alive at the Show each year when Australia's agricultural community comes together to celebrate at the Sydney Showground, and state pride comes to the forefront. There is also a remarkable sense of belonging and of representing your region with pride.

To further enhance the sense of community if you are not a Member, I recommend joining the RAS - membership provides the perfect opportunity to get even more out of your Show experience.

Every year, the RAS works to evolve the Sydney Royal competitions. Our commitment to adapting to consumer and industry trends ensures our competitions remain relevant, encourage excellence and are world-class.

The integrity of our Sydney Royal competitions rests in the hands of accomplished, knowledgeable and most importantly independent judges. I'm always impressed by their professionalism, energy and high ethical standards.

On behalf of the RAS, I encourage you to enter a 2023 Sydney Royal competition and wish you the best of luck. I'm very much looking forward to seeing the plethora of skills and talents on display at the Show.

Whether you leave the Show with a prize or not, I hope that you and all other exhibitors and competitors benefit from your Sydney Royal experience and look forward to welcoming you back for many years to come.

A handwritten signature in black ink, appearing to read 'M J Millner'.

Michael Millner
President, Royal Agricultural Society of NSW

SHEEP FLEECE SECTION

INTRODUCTION

The objective of the RAS of NSW Sydney Royal Easter Show Fleece Section is to conduct a fleece Competition, the results of which will reflect, from a breeding perspective, the most desirable characteristics of wool and which is commercially relevant. The Sheep & Wool Committee wants the Competition to provide valuable outcomes in terms of informing Exhibitors, wool producers and the public at large.

To achieve these objectives, the schedule provides for the use of current technology for objective measurement, supplemented by accepted subjective assessment criteria which the Committee believes will improve the Competition in terms of achieving its objectives.

The points scored in all sections will be rounded to the nearest 0.5 points.

Of the potential total of 100 points to be allocated by the Judges, 55 points may be awarded on the basis of objective measurement:

- Clean fleece weight - 40 points;
- Hauteur - 5 points;
- Staple Strength - 10 points.

45 points may be awarded by the Judges on the basis of subjective judgment with test results to be used as a guide if applicable:

- Trueness to Type - 10 points;
- Uniformity of Length (CV of length may be used as a guide) - 5 points;
- Density - 5 points;
- Character - 5 points;
- Style - 5 points;
- Colour - 5 points;
- Evenness of Fibre Diameter, (CV of fibre diameter may be used as a guide) - 5 points;
- Handle - 5 points.

JUDGING SYSTEM

All fleece Classes except those indicated (i.e. Merino Classes; 573 to 575 inclusive, Meat & Dual Purpose Classes 620 to 626 inclusive and NSW Classes 628 to 644 inclusive) will be judged according to the Judging System below.

CLEAN FLEECE WEIGHT - Maximum 40 Points

Clean fleece weight will be determined from the greasy weight of the fleece, as recorded by the stewards and AWTA Ltd representatives using tested scales, and the washing yield as tested by AWTA Ltd. The clean fleece weight will be adjusted downwards proportionately in the case of any fleece assessed as carrying more than 1% vegetable matter (VM). The points allocated out of the maximum of 40 will be calculated as a percentage of the benchmark clean fleece weight for the relevant micron and sex.

BENCHMARKS:

MERINO

For Merino fleeces the benchmark clean fleece weights required to achieve maximum points for a given mean fibre diameter will be according to graduated compound curves with increments in clean fleece weight for each 0.1 micron. The major plotted points of the curves are as follows:

Micron	RAM	EWE OR WETHER
	Kg Clean	Kg Clean
15.0	4.65	3.60
15.5	4.78	3.70
16.0	4.90	3.80
16.5	5.05	3.90
17.0	5.30	4.05
17.5	5.60	4.25
18.0	5.95	4.65
18.5	6.35	4.90
19.0	6.60	5.25
19.5	6.80	5.50
20.0	7.00	5.75
20.5	7.15	5.95
21.0	7.25	6.15
21.5	7.35	6.35
22.0	7.40	6.50
22.5	7.45	6.65
23.0	7.55	6.75
23.5	7.60	6.78
24.0	7.65	6.80
24.5	7.66	6.81
25.0	7.67	6.82

Example:

A superfine Merino ram fleece of 18.1 microns with clean fleece weight = 4.9 kg.

The benchmark for rams fleece of 18.1 microns on the graduated compound curve = 6.02 kg.

4.9 divided by 6.02 = 81.4%

81.4% of maximum 40 points = 32.0 points awarded for clean fleece weight.

MEAT AND DUAL PURPOSE

For Meat and Dual Purpose fleeces the benchmark clean fleece weights required to achieve maximum points will be:

	RAM	EWE OR WETHER
	Kg Clean	Kg Clean
Polwarth	6.47	6.52
Corriedale	10.64	8.19
Longwool	9.36	7.95

Example:

A Border Leicester ram fleece with clean fleece weight = 7.8 kg.

The benchmark for Longwool rams fleece = 9.36 kg.

7.8 divided by 9.36 = 83.34%

83.3% of maximum 40 points = 33.0 points awarded for clean fleece weight.

HAUTEUR - Maximum 5 Points

Hauteur is the average length of fibre in the combed wool top. The industry standard TEAM 2 formula is used to calculate Hauteur. The factors used in this calculation are vegetable matter, mean fibre diameter, staple length, staple strength and percentage of mid breaks. Vegetable matter is assessed visually by the stewards and AWTA Ltd representative at the time of sampling and the following default percentages will be used in the calculation of Hauteur:

Free or nearly free	0.0 to 1.5% VM = 1%
Light	1.6 to 2.5% VM = 2%
Light medium	2.6 to 3.5% VM = 3%
Medium	3.6 to 4.5% VM = 4%
Heavy	>4.6%VM = 5%

The average Hauteur ranges required to achieve the maximum points are:

MERINO

Extra Ultrafine	16.0 or finer 63 mm to 70 mm
Ultrafine	16.1 to 17.5 64 mm to 72 mm
Superfine	17.6 to 18.5 64 mm to 74 mm
Fine	18.6 to 19.5 64 mm to 75 mm
Fine Medium	19.6 to 20.5 64 mm to 75 mm
Medium	20.6 to 22.5 66 mm to 76 mm
Strong	22.6 to 24.5 69 mm to 78 mm
Extra Strong	24.6 upwards 74 mm to 84 mm

MEAT AND DUAL PURPOSE

Polwarth	67 mm to 82 mm
Corriedale	72 mm to 91 mm
Border Leicester	74 mm to 98 mm

If the Hauteur calculation for a fleece falls within the average range for its mean fibre diameter then the maximum of 5 points is awarded. A discount of 0.1 points is applied for each millimetre above or below the average range.

Example:

Average Hauteur range for fine merino is 64 - 75mm. If a fine merino fleece (18.6 to 20.5 microns) tests 77mm Hauteur (2mm outside the range), then 0.2 points are deducted and 5.0 points are awarded.

STAPLE STRENGTH - Maximum 10 Points

These points will be awarded on the basis of the staple strength in Newtons per Kilotex as tested by AWTA Ltd. Points will be awarded as follows:

20, < 20 N/KT = 0 points
21 to 24 N/KT = 1 point
25 to 26 N/KT = 2 points
27 to 28 N/KT = 3 points
29 to 31 N/KT = 4 points
32 to 34 N/KT = 5 points
35 to 38 N/KT = 6 points
39 to 42 N/KT = 7 points
43 to 46 N/KT = 8 points
47 to 49 N/KT = 9 points
50, >50 N/KT = 10 points

Example:

A fleece testing 37.0 N/KT would receive 6 points

BENCHMARKS**TRUENESS TO TYPE - Maximum 10 points**

These points to be awarded on the basis of the Judges' assessment of the degree to which the fleece possesses the most desirable characteristics from a manufacturing perspective including conformity of length to manufacturing requirements for the fibre diameter. The benchmark for the award of maximum points would be possession of all the attributes for appraisal in the top AWEX-ID grading.

UNIFORMITY OF LENGTH - Maximum 5 points

These points to be awarded on the basis of the Judges' assessment of the uniformity of length throughout the entire fleece. (CV of length may be used as a guide).

DENSITY - Maximum 5 points

These points to be awarded on the basis of the Judges' assessment of the compactness of growth, bulk and breadth of staple.

CHARACTER - Maximum 5 points

These points to be awarded on the basis of the Judges' assessment of the evenness and definition of the crimp from the base to the tip of the staple throughout the fleece.

STYLE - Maximum 5 points

These points to be awarded on the basis of the Judges' assessment of the fleece's possession of all the desirable characteristics from the perspective of the spinning process.

COLOUR - Maximum 5 points

These points to be awarded on the basis of the Judges' assessment of the colour or bloom of the fleece and the degree to which it will scour to a white product.

EVENNESS OF FIBRE DIAMETER - Maximum 5 points

These points to be awarded on the basis of the Judges' assessment of the evenness of fibre diameter throughout the fleece. (CV of fibre diameter may be used as a guide)

HANDLE - Maximum 5 points

These points to be awarded on the basis of the Judges' assessment of the softness and pliancy necessary for outstanding results in spinning.

PERPETUAL TROPHIES

The purpose of competition at the Sydney Royal Easter Show is to encourage agricultural and pastoral excellence, ensuring the continual improvement of standards. In the 1870s the Society introduced Regulations to govern judges and judging to ensure that competition was consistent and fair, and the tradition of Perpetual Trophies dates back to this time.

The Perpetual Trophies are the most prestigious of all RAS Awards. They have a dual function in recognising superior effort in competition and commemorating people and organisations that have had a long and meritorious connection with the Society. Some of the trophies currently competed for were first won in 1911. Winners of Perpetual Trophies are permanently honoured, taking their place alongside past winners and becoming part of the ongoing tradition of the RAS.

The Perpetual Trophy Collection of the RAS is unique. It comprises a wide range of beautiful and elegant trophies that illustrate an extraordinary history of agricultural judging and the pursuit of excellence.

Enquiries regarding the donation of Perpetual Trophies should be directed to the RAS Heritage Centre.
