A list of the exhibits selected for elimination must be lodged with the Society not later than 1st January, 1960. Where exhibits have been approved for elimination from commodities for judging such fact shall be indicated on the award card prior to commencement of judging, and will also be printed in the Catalogue.
22. The competition will be decided on the total points gained by the exhibits submitted for judging out of the net possible total of 9,750.
23. Where a District submits for judging fewer than the specified number of "exhibits" of any commodity as shown in the schedule the possible number of points shall be reduced accordingly, e.g. if six exhibits be required and only five are submitted for judging, the maximum number of points which could be awarded for the commodity would be five-sixths of the specified total points. NIL will be awarded in the case of each and every exhibit not submitted for judging as required.
24. In each section (numbered 2 to 14) and/or sub-section there is indicated the number of exhibits of each of the commodities to be submitted for judging. All exhibits submitted for judging on the floor must be staged unless otherwise provided under the scale of judging points provided that, where an exhibit is opened by the judge or otherwise damaged during or subsequent to judging or where an exhibit is retained by the Society under Special Regulation 36, a substitute exhibit for the same commodity shall be staged.
25. Except where otherwise provided the judge of a commodity shall award points for each exhibit based on a maximum of 100 points for each exhibit.
26. The awards so made shall be handed by the respective Stewards to the Steward-in-Chief who will arrange for the aggregate points so allotted to be converted pro-rata to the appropriate points to two decimal places in relation to the maximum set down for the commodity in the Schedule.
27. A judge in any section may withhold his award until such time as he is satisfied that the exhibit is in accord with the conditions.
28. No exhibitor or person representing a District shall address any Judge while the latter is judging. All explanations must be supplied to the Stewards in every case. No Steward shall consult with the Judge or offer any advice or suggestion in respect to the number of points to be allotted in any case. During judging no person shall be admitted to the Courts except the Judges, Stewards, and Delegate or Delegates appointed by the District to explain any details which may be considered necessary by the Stewards.
29. A judge may seek from the Steward-in-Chief any ruling or interpretation of the conditions required.
30. In respect of any appeal or protest the matter shall be dealt with in accordance with the provisions of General Regulations Nos. 75 and 78.
31. The Society empowers the Agriculture Section Committee to adjudicate on any matter not otherwise specifically provided for in the Regulations.
32. A District Court Organiser (Representative) may seek a ruling or interpretation of the conditions through the Steward from the Steward-in-Chief and shall have the right to appeal thereon to the Society's Agriculture Section Committee.
33. The awards will be released after the time for lodging of the protests has expired. (For the purpose of the Commonwealth District Competition the decision of the Judges will be deemed to have been made when the final points become available from the Director. Any protests must be lodged within two hours of that time.)
34. The Judge shall be requested to return to the Courts the day after judging for the purpose of discussing with the District Court Officials the merits and/or demerits of the Court.
